

The Lemberger Company (LEMCO) and STI Join Forces to Better Meet Missouri Customer Needs

I am writing to inform you that the Lemberger Company (LEMCO) has been acquired by Software Technology, Inc. (STI), a leader in the K-12 market.

For over twenty years, The Lemberger Company has built deep relationships with Missouri customers. We hope to continue these relationships for many years to come. The owners and employees of LEMCO felt it was in the best interest of Missouri customers to join forces with a company that would be able to do the following: (1) maintain local, Missouri support through current LEMCO employees, (2) have the ability to invest and provide innovative, next-generation tools for LEMCO customers, and (3) have a track record of long relationships with customers. STI met all three criteria.

Who is STI? The company has been focused on meeting the needs of K-12 educators since 1982, and we are excited to have the opportunity to work with so many Missouri customers through this acquisition.

What does the acquisition of LEMCO by STI mean to you?

- *Local support staff*—STI is committed to keeping the LEMCO office and personnel in Missouri.
- *Continued support of LEMCO products*—STI wants to continue and build on the long relationship you have with LEMCO. If you are happy with your current student information system or financial management package, keep it as is. We will continue to support these products. For those customers who would like to upgrade to STI's new products, we will be reaching out to you on the details of a migration plan shortly.
- *Expanded options and offerings*—We have many products to help you manage your district's data. Our suite includes web-based systems for:
 - Student information
 - Special education
 - Assessment
 - Professional development
 - We also have a financial management division, which we are delighted to expand with this acquisition.

How can I reach STI if I have a question?

We have attached a Q&A list to this letter, and we have enclosed a brochure which introduces you to STI. A great resource of information on our company is our website, www.sti-k12.com. Please do not hesitate to contact us with any questions you may have at (573) 422-3354, ext. 2.

Please note that all invoices will now come from STI and should be processed and forwarded to the address listed on the invoice, 4721 Morrison Drive, Suite 200, Mobile, AL 36609.

We look forward to a long and mutually beneficial relationship with you.

Sincerely,

Robert A. Fiance
President & CEO, STI
